**RE: Steward Appointment of Levin Miller**

Ms. Smith:

This letter is to inform you that, effective immediately, Mr. Levin Miller has been appointed as the Union Steward to serve the bargaining unit members of the Electric Department at the City of Malden, MO. As this is the first Steward to serve in such capacity for the Union, and as the City may not be aware of the impact of this appointment, we respectfully inform you that Mr. Miller serving in such capacity is intended to be the "liaison" between the City and the bargaining unit on all matters that arise between such throughout the normal course of daily operations. He is not without support, as I will continue to be a phone call away and intend to handle all forthcoming issues with respect, honesty, and professionalism in my representational duties.

As Steward for such, Mr. Miller retains the full right and ability to represent any and all bargaining unit members, should the need arise. I request you inform the appropriate persons of these appointments and extend to them the courtesies and considerations befitting these positions.

As always, should you have questions or concerns on this or other matters, please feel free to contact me at any time.

Sincerely,

*Mark Baker*
