

Direct Billing for Optometrist Visits

As an added service to our members Business Manager Hughart has led a program to allow Dr. John D. Power, OD and Power Eye Care in Marion, IL to bill the NECA-IBEW health and welfare fund office directly for optometry services during the 2022 plan year. Steve is planning to work to get this service extended for 2023 and beyond at the Health and Welfare trustees meeting next month. We will keep you posted on future developments.
